FOR GOVERNOR.

Hon. James B. Garnett's Name
to be Presented.

He Announces That he is a Recep-
tive Candidate For The
Nomination.

Cerulean Springs, Ky., July 1.—The name of the Hon. James B. Garnett, of Trigg county, former Commonwealth's Attorney for the Third Judicial district, will be presented at the gubernatorial convention in Lexington July 19. Judge Garnett is here from Hopkinsville to spend a few days resting from his labors during the term of the Christian Circuit Court.

To a Courier-Journal representative he said: "I am in the hands of my friends, though I am not an announced candidate and shall not make an active canvass for the nomination. If the convention determines I am the proper person to make the race I shall accept the honor with due appreciation. If my own or any other county desires to instruct me I shall be highly gratified. I was pressed by friends while at the State Convention in Louisville to announce myself, and since that time I have received many letters and personal solicitations from Democrats of all sorts and conditions promising me their aid and votes. The office is one to which any man is justified in aspiring, and certainly my appreciation would be deep and genuine should the Democrats of Kentucky see fit to nominate me with it. Personally I am for the man who can win, whoever he may be. The greatest care and wisdom should be exercised in choosing our standard bearer, and the man selected should be one who can best unite the party and redeem the State. If the convention names me it will be my pleasure and duty to make an active and vigorous canvass of the entire State. That sort of a campaign, upon a conservative platform, will undoubtedly result in the election of the Democratic candidate."

Judge Garnett is a man of splendid physique and great magnetism, and is in the very zenith of his fame as a lawyer and orator. He was Commonwealth's Attorney in this district eighteen consecutive years, and before that was a member of State Senate. His entrance in the race will change all slate in the First district, "the Democratic Gibraltar," and it is likely many counties in the Second will instruct for him.

HUNDREDS LOST

And \$10,000,000' Damage By
Fire In New York Harbor.

Four Big Steamships and Their
Piers destroyed—Dynamite
Used to Check the Blaze.

New York, June 30.—The greatest calamity in the history of this harbor occurred tonight, involving a loss of over ten millions and several hundred lives lost, while the hospitals are full of injured.

Four great piers of the North German Lloyd line in Hoboken burned this evening, also the steamships Saale, Main, Bremen and Phoenixia. Also Campbell's storage warehouse, on the opposite side of the street, five buildings, each five stories high, and other structures.

The fire started in some cotton bales on a pier and swept everything for a third of a mile. The steamship Kaiser Wilhelm Der Grosse was badly burned. The fire department and fire boats were helpless.

The greatest loss of life was on the Main, which arrived to-day. Many passengers and all the crew were still aboard. Nearly all were lost.

The hotels as well as the hospitals in Hoboken are filled with the injured.

The water is strewn with bodies for great distances. Thirty persons under one pier went down together.

The fireman could not approach the mountain of fire. The flames seemed miles in length. All assistance from both sides of the river was helpless before the seething flames. Scenes of the people at the portholes of the burning vessels were the most distressing ever known.

It is impossible to estimate the number burned and drowned.

A heavy wind was blowing and the only way to stop the fire was by using dynamite, blowing up piers and everything within its reach.

There were many distressing scenes on the recovery of the burned bodies tonight.

WAR IN CHINA.

German Minister Has Been As-
sassinated.

The Allied Forces Ashore Now
Number About

14,900.

Shanghai, July 1.—The report of the assassination of Baron Von Keteler, the German Minister at Pekin, has been confirmed. All the legations were destroyed save three. The remaining Ministers were safe June 25, but Young Lu telegraphed that he doubted if they could hold out another twenty-four hours. Russia takes a hopeful view of the situation and says the Boxer movement is not growing, being confined to Pei Chi Li province. Other reports are that Prince Tuan is in control, and that on June 30 he ordered the Viceroy to attack the foreigners, which order was not obeyed. The total allied force ashore is 520 officers and 13,600 men.

An outbreak of Boxers is feared at Canton and Chefoo. Nothing has been heard from the column which relieved Admiral Seymour five days ago and then marched toward Pekin. It is again charged that barbarities practiced by the Russian soldiers have greatly injured the cause of the allies.

THOUSANDS OF PAPERS READ

The Ladies' Home Journal Has Almost Every American Publication.

There is, perhaps, but a single place in this country where almost all the newspapers of the United States are read. To the Exchange Bureau of the Ladies' Home Journal practically every paper in this country comes—an aggregate of nearly 9000. It is the rule to read each one within a day after it is received, so a large staff of trained readers is kept employed constantly. By this plan it is possible for the editors to keep in close touch with the reading public and accurately informed to the topics that are uppermost in the public mind in every section of the country. In this reading, such selections are made as may be of the special immediate interest, as well as matter for future reference and notes that may serve as memoranda or suggest articles. Thousands of dollars a year are spent in this work alone, but Editor Bok regards it as a very profitable investment, as invaluable information is thus supplied that could be obtained in no other way.

North-western Drouth.

Winnipeg, Man., June 25.—Of 1,800,000 acres under wheat one million acres will never be cut. Rain can not now change a stunted crop six to eight inches high and a small head into a crop. Best authorities hope for good seed and feed, but this is doubtful. This was the hottest day of the year.

Late Turkeys.

There are at least some advantages in late turkeys. One is, there is less risk of lice, as the weather is usually warm and more settled and they can be given a freer run than the early hatched. Then they will need less feeding and will cost rather less to raise at least during the early stages of growth. Of course it will cost more to winter them but it is an exceptional case when after the holiday rush is over, turkeys are not advanced in price considerably, and they are fully as profitable on this account as the early hatched, and as turkey eggs are not usually sold in market it will be found a good plan to allow every turkey hen after she has laid a sufficient number of eggs, to set and hatch them out, taking care to give kind treatment as will maintain a steady growth and have ready for market in good season in the middle or latter part of winter.—Michigan Poultry Breeder.

WARE'S SIDE.

Answer Filed To The Divorce Petition Of Mrs. Ware.

Partial Victory for Ware In The Dismissal of the Attachments Except on His Real Estate.

The first legal bout in the Piner-Ware scandal Friday resulted in a partial victory for Ware. On the motion of Ware the attachment against the property, issued in the divorce suit brought by his wife, was dismissed except as to his real estate and \$2000 mill stock which was held to be sufficient for the purpose of the attachment. The court declined to enter into a consideration of any other feature of the case and it therefore goes over for trial at the regular September term.

Mr. Ware enters a general denial of the charges in his wife's petition. He denies that she was faithful and a faithful wife and that he abandoned her without cause, or that he falsely accused her of adultery. He charges that Dr. W. K. Piner called to see his wife the day of the shooting and says his visit may have been made under the cloak of religion, as he had frequently visited her before for improper and unlawful purposes, thereby causing

great distress of mind and breaking up his home. He denies that he was intoxicated and alleges that he was sober at the time of the shooting.

Says He Caught Them.

He says he entered his home on June 19 and noiselessly approached Dr. Piner and his wife in the parlor in a compromising position. This so enraged him that he shot and wounded Piner. He denies that he has circulated malicious reports about Mrs. Ware, but says it is with sorrow and intense mortification that he alleges her to be guilty of very wrong and improper conduct in becoming so infatuated with Piner as to suffer him to lead her into indiscretion and cause her to prove untrue to her nuptial vows.

He denies that Piner is a man of high moral character.

He says it is true he has treated him with kindness and courtesy, and was slow to believe even when rumor came that Piner was capable of "deluging him home with tears and sorrow and ruthlessly tearing asunder what God had joined together."

Intimacy Of Long Standing.

He says for months undue intimacy had existed between Dr. Piner and Mrs. Ware, and for six months past Piner had visited at his house on an average of three or four times a week, and generally when he was not at home. He charges that Mrs. Ware visited Piner in his study under such circumstances as to cause comment. And that, in speaking of Piner, Mrs. Ware used "endearing and affectionate terms."

He charges that Piner, by his pleasing manner and fascinating address, had stolen Mrs. Ware's heart and deprived her of the most precious jewel possessed by women. Only recently he learned of their relations.

He was loath to believe what he heard, but finally went to work to investigate. He convinced himself that the reports were true, and found many other evidences not here given.

His Tender Consideration.

He denies that his wife did not know of his disapproval of Piner's visits, and that he had treated

plaintiff with cruelty and says she lived in ease and luxury since her marriage, and that "not even the winds of summer were permitted to visit her face too roughly."

He denies that he is an unfit person to have the custody of his children and alleges that she is not a proper person to have them in custody. He denies that his real estate is worth \$10,000 or that he is worth \$40,000.

A Bad Trade.

He says six years ago he died a residence, worth \$5,000, to his wife, the consideration being love and affection, and since she has proved false to him she has forfeited her right to the home.

He denies her right to alimony and that he would fraudulently make way with his property to escape a judgment. He makes a direct charge of adultery and says he shot Dr. Piner only after being thoroughly satisfied of his criminal violations with Mrs. Ware.

He prays for the dismissal of the attachment suit, and asks that the claim for alimony be disallowed and that he be granted a divorce on the ground of adultery.

The arguments on the motion to dismiss the attachments occupied the entire afternoon and the decision noted above was not rendered until late in the day.

Dr. Piner preached at the Methodist church on Sunday morning and evening to very large congregations.

ROYAL Baking Powder Absolutely Pure

Makes hot breakfast-breads wholesome—no yeast germs, no alum. Makes cake, biscuit and pastry of superior fineness, flavor and delicacy. Makes food that will keep moist and sweet. Is most economical, because it is the purest and greatest in leavening strength. In the easy, expeditious preparation of the finer cakes and pastries, Royal is indispensable.

Care must be taken to avoid baking powders made from alum. Such powders are sold cheap because they cost but a few cents per pound. Not only will they spoil the cake, but alum is a corrosive acid, which taken in food means injury to health.

Gov. Beckham Should Withdraw.

Discussing the gubernatorial situation, Dr. John D. Woods editor of the Warren County Courier says:

"The question as to who shall be nominated for Governor by the Democratic Convention to assemble at Lexington on July 19 continues to excite serious discussion, and the feeling that the strongest man should be steadily growing. The visit made a few days since by General Joseph H. Lewis developed the fact that the feeling in Western Kentucky was strong for that incorruptible old soldier and jurist, whom no man in Kentucky ranks in all the virtues that pertain to an ideal candidate. Everywhere he appeared he was greeted with a welcome that plainly showed the hold he has upon the people's confidence and affections. The disposition to consider Governor Beckham the logical candidate has given way to the more important question. Who can unite the party and bring the most votes to the party in November, and while it may be that question is yet to answer it is clearly ascertained that Governor Beckham is not the man sought. It grows more and more apparent that it is to attempt the almost impossible to nominate him under the handicapped conditions that surround him. All over the State the demand for a man not hampered by objections from factions is growing, and Goebel Democrats as well as anti-Goebel Democrats are seeing to the dangers that lie in nominating any man of however great ability or purity of character who has been mixed up with any Democratic faction in the late unhappy campaign. With a candidate who has had no active connection with either the Goebel or anti-Goebel wing of the party and there is nothing more certain than that the Democracy will find the breach all closed, harmony in the ranks, and victory at the polls in November. Unity in the party and votes for the Democratic candidate are essential needs of the hour, and to secure these concessions to inexorable demands should be the willing duty of every Democrat to assist in bringing about.

To nominate the strongest man is to decline to nominate Mr. Beckham, but it by no means implies either disrespect or repudiation of his aspirations. It simply means that exigencies unusual and imperative make it a matter of absolute necessity that his claims be held in abeyance and the demands of the occasion be sensibly obeyed. Governor Beckham is a good man, as good as the best, a man of brains and worth, but the condition in which he finds himself, through no unwise purpose or action of his own, renders it wholly untrue in his party to make him its standard bearer.

It is better to be taken by surprise than to be taken by the police.

Dear Sirs.—For the past 10 years I was troubled with my stomach. About 4 years ago I was taken down with rheumatism and was not able to do a day's work for three years. All medicine seemed to be of no benefit to me. A year ago I was advised to try Dr. Caldwell's Syrup Peppermint. I truly believe I have never had a day's work since. My rheumatism is all gone and my stomach it is in a good condition. It has saved my life and I can not recommend it too highly.

Preserving Eggs.

According to the experiment made by the North Dakota station water glass more closely conforms to the requirements of a good preservative than any of the substances commonly used.

It was found in these experiments that a 10 per cent. solution of water glass preserves eggs so effectually that "at the end of three and one-half months eggs that were preserved the first part of August still appeared to be perfectly fresh. In most packed eggs, after a little time, the yolk settles to one side, and the egg is then inferior in quality. In eggs preserved for three and one-half months in water glass the yolk retained its normal position in the egg, and in taste they were not to be distinguished from fresh, unpacked store eggs. Again, most packed eggs will not heat up well for cake making or for frosting, while eggs from solution in water glass seemed quite equal to the average fresh eggs of the market."

OF twenty methods of preserving eggs in Germany, the three which proved most effective were coating the eggs with vaseline, preserving them in lime-water and preserving them in water glass. The conclusion was reached that the last is preferable, because varnishing the eggs with vaseline takes considerable time and treating them with lime water is likely to give the eggs a disagreeable odor and taste.

There is, however, one drawback with eggs preserved in a solution of water glass, viz: that the shell easily bursts in boiling water. This may be avoided by cautiously piercing the shell with a strong needle."

The following directions for preserving by this method are given:

"Use pure water that has been thoroughly boiled and then cooled. To each ten quarts of water add one quart of water glass. Pack the eggs in a jar and pour solution over them, covering well.

"Keep the eggs in a cool, dark place. A dry, cool cellar is a good place.

"If the eggs are kept in too warm a place the solicate is deposited and the eggs are not properly protected. Do not wash the eggs before packing, for by so doing you injure their keeping quality, probably by dissolving the mucilaginous coating of the shell.

"For packing, use only perfectly fresh eggs, for stale eggs will not be saved, and may prove harmful to the others.

"Water glass is a very cheap product, that can usually be produced at not to exceed 50 cents per gallon, and one gallon would make enough solution to preserve fifty dozen eggs, so that the cost of material for this method would only be about 1 cent per dozen. Water glass is sodium and potassium silicate, sodium silicate being usually the cheaper. If wooden kegs or barrels are to be used in which to pack the eggs they should first be thoroughly scalded with boiling water, to sweeten and purify them."

The recipe given below is very good for preserving eggs, although it takes considerable work to prepare it. Into twenty-four gallons of boiling water put twelve pounds of unslaked lime, four pounds of barrel salt. Stir frequently for one day. The next day dip off the clear liquid and put it into stone jars. Dissolve the following ingredients in one gallon of boiling water and add to the above liquid. Five ounces common baking soda, five ounces cream of tartar, five ounces saltpeter, five ounces borax and one ounce alum. Drop the eggs into this brine, every day, as gathered. Eggs greased with fresh lard and put down in salt keep well. Use cracker boxes or others of about that size, as these are light enough to be easily handled. Turn the box half over two or three times a week. Were a village housewife I am very sure that a goodly supply of eggs, for culinary purposes at least, would be preserved when they are but six, eight or ten cents per dozen. I should not buy them at the grocery, but would engage my supply of some reliable farmer's wife, who would guarantee me strictly fresh eggs. Many are glad of the opportunity to furnish them for the money in hand, rather than be always obliged to take exchange at the store.

GOLDEN CAUGHT.

Landed by Two Men and Hurried

Away to Frankfort.

Barbourville, Ky. June 28—

Green (Golden, one of the accused conspirators in the G. B. Miller case and a cousin of Wharton Golden, was captured at his home on Brush Creek by George and Will Hinkle last night. Officers with their prison passed through Barbourville at 3 o'clock this morning for Lovell's, where they boarded a train for Frankfort. Friends of Golden informed Republicans all along the road of the capture in order that habeas corpus proceedings might be instituted. They would have released him here but for the presence of Circuit Judge Wilson.

GLENDOWER—"I can call spirits from the very deep."

HORSEMAN—"Why, so can I, or so can any."

"But will they come when you do call for them?" SHAKESPEARE.

How quickly Horstmar's wise and witty retort tears the tragic mantle in which Glendower stalks, and shows beneath the hero's robe, the motley of the mountebank. Most people would have taken the Welshman at his word, and left him a jest, without noting the difference between to call and to command.

Certain points of comparison are suggested between Horstmar's tragic claim and the comic claim made in some vicious advertisements. "I am a woman," I understand all about women," I understand all about women," I understand all about women," I am a woman." The modern Mrs. Horstmar puts her finger right on the weak spot of that clamorous claim by saying: "Why, if you can cure woman simply because you are woman, then I can and so can any woman." Which very plainly brings out the common sense fact that the cure of diseases does not depend upon being a man or being a woman, but depends upon being a trained and experienced physician.

There is, as far as is known, no qualified woman physician associated with any medical college. There is a certain claim that there is no man, or woman, who can show an experience or record equal to that of Dr. R. V. Pierce; more than thirty years of treatment of women, and nearly forty-eight percent cured out of more than half-a-million women treated. Sick women can consult Dr. Pierce by letter absolutely free charge. Every letter is held as strictly confidential as any other. All answers are mailed securely sealed in perfectly plain envelopes. Address Dr. R. V. Pierce, Buffalo, N. Y.

GOEBEL ELECTION LAW.

Kentucky Legislature Apt to Be Called Together to Amend It.

Lexington, Ky., June 26.—Gov. Beckham, ex-Senator Brunton, Judge Jere Morton, Judge Watts Parker, Col. John R. Allen, candidate for Congress in the Seventh district, Sheriff H. M. Bowsher, Howard McCorkle and Willa Wiley were entertained by Gen. W. H. Gentry tonight. The meeting took a political turn, the result of which, it is authoritatively stated, will be a call of an extra session of the legislature by Gov. Beckham to repeal the Goebel election law. Said advocates of the anti-Goebel wing, of which Brunton is a leader, is satisfied Beckham has been made up to believe a continuance of the law will defeat the part in Kentucky. The tip is that Beckham will not wait for the Democratic convention here July 19 to act. Blackburn and McCreary who were to be present, did not attend.

Vacancies to Be Filled.

Frankfort, Ky., June 29.—Gov. Beckham will in a few days issue writs of election for the filling of three vacancies in the Senate and one vacancy in the lower House of the Legislature. The elections will be held late in July or early in August. This action on the part of Gov. Beckham is taken as an unmistakable indication that the Governor intends to call an extra session of the Legislature some time in August or early in September to consider proposed modification of the Goebel election law and State matters.

Robert Noske, a railroad man, now of Bristol, Tenn., is the name of the Goebel suspect for whom a warrant of arrest was issued yesterday. The requisition was made on the Governor of Tennessee instead of Virginia, and Deputy Sheriff Hard is now at Bristol, Kentucky formerly lived in Eastern Kentucky and it is said was here with the Harlan County men at the time of the assassination.

The party left sunny Italy June 9, sailing from the City of Naples, and were on the water eighteen days.

Pleasant Social Event.

One of the most enjoyable social events of the past week was an entertainment given by Mr. and Mrs. R. S. Lindsay, at their pretty home near Pee Dee Friday night, complimentary to their son, Albert. The invitations named the hours from 5 to 9 p. m., but it was near midnight when the crowd dispersed. Elegant refreshments were served during the evening.

Cooler, with rising barometer from about 9th to 11th. Very warm weather will prevail from 12th to 15th, accompanied by thunder storms in most sections. Unsettled conditions will prevail up to 20th, but the rain-fall will not be heavy. From 20th to 22nd cooler weather is promised. Excessive heat is booked for 24th to about 26th. OLD GRUDGE

Causes Fatal Shooting of L. & N. Brakeman.

Will Dicken, an L. & N. freight brakeman on the Henderson division, and Walter Deshon, a brakeman of the same crew, engaged in a personal encounter at Guthrie last Thursday afternoon, with the result that the latter was shot in the bowels and perhaps fatally wounded. It is said that the row was the result of an old grudge. Dicken is a young man who lives in Nashville, and Deshon is a man of Deshon. The latter lives in Earlton. Deshon was taken to his home the same night, but it is not believed that he can recover. Dicken had not been arrested at last accounts.

SEVERAL HUNDRED

People Attended The Opening Ball At Cerulean.

The opening ball at Cerulean last Thursday night was largely attended and proved a most pleasant event in every particular. There were nearly three hundred people present on the delightful occasion and dancing was indulged in until a late hour. A sumptuous supper was served and greatly enjoyed by all. This delightful summer resort starts out with every indication of a most prosperous season. A large number of Hopkinsville people are now at Cerulean and many will remain throughout the summer months.

HAD NO ENEMIES,

But Was Found Murdered on Public Highway.

John Cooley, of Mitchellsburg, a cousin of Messrs. J. W. and L. C. Cooley, of this city, was found dead on the roadside near his home last Thursday morning with a bullet hole in his forehead. Who fired the shot is unknown, and Sheriff Coulter is now searching for a clew to the murderer. Cooley was a married man of family, and, so far as known, had no enemies. He was employed in a sawmill.

REV. ROBERTS RESIGNS,

But Church Will Make Effort to Retain Him.

Rev. Arthur Roberts has tendered his resignation as pastor of the Universalist church in this city to take effect in the fall. Rev. Roberts has been in charge of the church for three years and has made many friends who would regret to see him leave. It is understood that a large church in Kansas City desires his services, but a great effort will be made to have him remain here. His church has granted him a month's vacation.

Broke the Record.

An alarm of fire was sounded at 1:30 o'clock Friday and the fire department broke all records in getting out. In one minute the hose cart was out and headed toward the fire. It was at J. B. Rogers' on South Virginia street, and the small blaze did but little damage.
